

CARE PROVIDER'S KIT

Graceful Passages- A Companion for Compassionate Transitions (Book & 2 CDs)
Grace In Practice- Clinical Applications for Graceful Passages (Manual)

*“As vital to caregivers
as to those in our care.”*

-Rev. Margaretmary Staller
Chaplain, Heartland Home Health and Hospice

The Care Provider's Kit features the acclaimed 2-CD giftbook audio resource *Graceful Passages*, combined with its accompanying clinical application guide, *Grace in Practice*. These tools serve as a core curriculum in continuing education of healthcare professionals.

Endorsed by leading medical and hospice professionals alike, *Graceful Passages* has set a new benchmark in the field of non-pharmacological interventions. Created to alleviate anxieties as a result of serious illness and/or terminal diagnoses, *The Care Provider's Kit* combines two products that work synergistically, supporting the effectiveness of healthcare professionals, while offering the products at a reduced packaged price.

Using *Graceful Passages*, (including both the "Messages CD" featuring distinguished humanitarian leaders' spoken messages, and the "Instrumental Music CD"), along with the inspiration and guidance of the application manual, practitioners maximize their options of use. The synergy of these resources ensures an optimum listening, learning, and healing experience for both patient and care provider.

Currently in use in the nation's leading hospices, these tools are helping healthcare providers enhance their offering of meaningful spiritual care, particularly those dealing with life and death issues. This package also provides a unique and powerful method for engaging in important conversations that can help lead to acceptance for those working with serious illnesses. As a result of its use, staff and families are experiencing more compassion, connection, and peace during challenging transitions.

Acclaimed by leaders in the field:

“...a unique resource offering anticipatory guidance... to build confidence and connect listeners to their own inner wisdom.” -Ira Byock, M.D. Author, *Dying Well*

“...a wonderful addition to our Palliative Arts Program, bringing comfort to patients and families.”
-Mary Labyak C.E.O., The Hospice of the Florida Suncoast

“...a compassionate and reassuring companion.”
-Frank Ostaseski Founder/Director, Zen Hospice Project

“...a wonderful tool to help people touch the healing power of their spirit and inner resources.”
-Christina M. Puchalski, MD Founder/Director,
George Washington Institute of Spirituality and Health
